Unfortunately, due to the provincial Public Health regulations announced yesterday, we are unable to return to regular curling as was hoped.

The Board has decided we will continue with the current Practice Ice set up times for all interested members, coordinated through the evening league and morning drop-in coordinators until January 24th. It is our intent, at this time, to extend the curling season by 2 weeks at the end of the season to offset this extension of downtime.

All of the previous COVID-19 procedures for the club and Practice Ice are still in effect i.e. no games during this 2 week period, etc.

Thank-you all for your patience and understanding as we adapt to the Public Health requirements. Stay safe!

Beryl Maclean, Chair.
