Happy New Year to Everyone. Winter has arrived!

It was previously mentioned in the pre-Christmas email that there would be Practice Ice availability this coming week as we anticipate back to normal on the 11th.

The ice techs are willing to do the ice as if we were business as usual times. So it was agreed that the established times will be available for the leagues as if they were playing normally - i.e., Ladies ice availability will be Monday and Wednesday am 9-11:30 and Monday 1-3. Also Thursday evening ladies can practice during your normal time.

Men's morning and afternoons on Tuesday and Thursday at their regular times.

The other leagues will be using their regular dates and times as desired. The league coordinators can decide how to divide people up based on who is interested or arrives to practice - i.e. one team per sheet working on making your shots etc. This would mean only 12 people in the ice shed at one time, for 1/2 hr at a time and alternate, etc., or 3 teams for the first hour and 3 for the second. No teams playing each other.

A few other things to remember: - no more than 25 people total can be in the building at one time, no spectators, no Bar. All club COVID-19 protocols must be followed.

Hope this is not too confusing; not sure how much interest there will be in this but it's all we're allowed for this week.
